

NATURAL AND ORGANIC INGREDIENTS

SilverSol® Nano Silver

The next generation of silver products. Through a new manufacturing technology, patented under multiple patents, our advanced nano-silver solution has become the new standard by which all other silver products are measured.

Coconut Oil

Coconut Oil's unique natural composition helps increase hydration and decrease water loss in dry skin. This helps your skin to be smooth to the touch and very soft.

Vitamin E

Excessive sun exposure can damage healthy skin, causing fine lines and wrinkles. In some instances Vitamin E has been shown to help reduce sun damage and signs of aging.

Hyaluronic Acid

Hyaluronic acid is a must have ingredient for an exceptional lotion. It's naturally found in the body. It hydrates the skin and reduces the appearance of fine lines and wrinkles. Hyaluronic acid is often called the natural fountain of youth because of its ability to retain many times its weight in moisture.

Daily Moisturizing Hand & Body Lotion

Designed to be the perfect body lotion you'll love using every day. It utilizes all of the ingredients you know and love to give you the best moisturizing benefits a lotion can offer.

Skin Cream For Dry Skin

Dry skin requires special products that are designed to provide the best benefits. Silver Biotics® Skin Cream's thick and moist formula makes even the toughest skin feel silky smooth.

"OH MY GOSH!!!! Did I mention I apply lotion to my hands about 100 times a day? Always have. I HATE dry hands, but I LOVE this lotion. The fact it has silver makes it a full on love affair for sure!" – Layce, LMT
